

Konftel C20800 Attach

Go for full room inclusion

The Konftel C20800 Attach is optimized for in room PC solutions such as Microsoft Teams Rooms and Zoom Rooms. Designed for small to large meeting rooms, it features the Konftel Cam20 4K conference camera and the Konftel 800 conference phone with OmniSound® plus a long active audio cable.

Meeting room video solutions based on an in room PC and often a control pad, are simple to operate and a preference for many IT departments. Popular options are the preconfigured Microsoft Teams Rooms and Zoom Rooms, while some choose a more open platform approach. But to bring the system to life a high quality conference camera and speakerphone needs to be connected. The Konftel C20800 Attach video kit works with all in room PC variants.

OmniSound®

- Room type: Small to Large
- Video kit for in room PC solutions
- 4K Ultra HD
- 123° field of view
- OmniSound® lifelike audio
- Beamforming microphones
- Auto framing
- 8x digital zoom
- USB
- Two-year warranty
- Climate Neutral certified

A WIDER PICTURE

The Konftel Cam20 is optimized for situations where the conference camera needs to be positioned close to the table. The 123° field of view means that all the participants can sit in a comfortable position and still fit into the video image. At the same time, the camera creates a realistic image with no distortion. The Konftel Cam20 is equally at home in small, medium-sized and even large rooms thanks to its 4K capabilities.

MAXIMIZE AUDIO PLACEMENT

The Konftel C20800 Attach kit comes complete with a special 10 meter active USB audio cable, to reach back from the PC in front of the room to the speakerphone for central placement on the table.

OMNISOUND FOR POWER AND CLARITY

Konftel's refined audio platform OmniSound® works actively to keep the dialog flowing in your meeting. In the Konftel 800, the result is particularly powerful and clear sound that allows participants to relax, knowing that they can hear well and be heard. This creates a natural sense of presence.

Expand the Konftel 800 into really large rooms

EXPAND THE VOICE PICK-UP

With the Konftel Smart Microphone, you can expand the pick-up range to handle larger conferences. Connect one or two expansion microphones, depending on the size of the room. The Konftel Smart Microphone has built-in cancellation of echo and background noise through OmniSound®.

MAXIMIZE THE AUDIO EXPERIENCE

The cascading feature extends both the sound distribution and pick-up range for maximum coverage, giving you rich and full audio even in extra large rooms. Up to three Konftel 800 devices can be daisy-chained by cable, completely without hassle and complexity.

PERFECTLY FRAMED ALL THE TIME

With auto framing, room participants will always be ideally fitted within the picture. This removes the need to manually crop the image with the digital zoom. If someone leaves the room, the framing cleverly readjusts. The feature can be disengaged if required.

CLIMATE NEUTRAL PRODUCTS

Konftel is certified in line with the Climate Neutral standard. This means that we have offset all our greenhouse gas emissions and are taking action to further reduce those emissions. When you choose a Konftel product, you keep a clear climate conscience while supporting your organization's growing need for video collaboration.

Specifications Konftel C20800 Attach

GENERAL

Product name: Konftel C20800 Attach

Item number: 971201088 EU, 972201088 UK, 973201088 AU, 874201088 US

Contents: Konftel 800, Ethernet cable 6.5 m, Konftel PoE Injector, network cable 6.5 m, power cable 1.8 m, quick guide, important notice document. Konftel Cam20, 4.5 m USB cable (type A/type B), remote control with two AAA batteries, Quick guide, safety declaration, 10 m USB cable (type A/micro B), Attach Quick guide

SPEAKERPHONE
